

BIostatISTICS 667 (Fall 2019)
Homework 3

1. Inspect the program “iml02.sas” and its output. Describe what the program does. Use only standard mathematical language and notation. Do not recite any computer statements. Explain any patterns you observe in the output.
Do the same for “iml03.sas”.
2. Problem 11.2 in the textbook (page 337).
